dsaddhistory

August 16, 2005

Abstract

Add a history record to an attributable object This task is part of the daltools package

1 Instruments/Modes

Instrument	Mode

2 Use

3 Description

Add a history record to an attributable object

This task adds a history record to a given attributable object. The object must be a dataset, array, table or column.

4 Parameters

This section documents the parameters recognized by this task (if any).

Parameter	Mand	Type	Default	Constraints
object	yes	String		

Fully qualified name of the attributable object

text	yes	String		

The history record to add to the attributable object

5 Errors

This section documents warnings and errors generated by this task (if any). Note that warnings and errors can also be generated in the SAS infrastructure libraries, in which case they would not be documented here. Refer to the index of all errors and warnings available in the HTML version of the SAS documentation.
