dsinserttable

August 16, 2005

Abstract

Insert one table (source) into another (destination) This task is part of the daltools package

1 Instruments/Modes

Instrument	Mode

2 Use

3 Description

Insert one table (source) into another (destination)

This task inserts a table (or a specified subset) into another table.

4 Parameters

This section documents the parameters recognized by this task (if any).

Parameter	Mand	Type	Default	Constraints
count	yes	Int		

The number of rows to insert

from	yes	Table		

The fully qualified name of the source table

fromrow	yes	Int		

The first row number in the source table which will be inserted into the destination table

to	yes	Table		

The fully qualified name of the destination table

torow	yes	Int		

The row number where the source table should be inserted to

5 Errors

This section documents warnings and errors generated by this task (if any). Note that warnings and errors can also be generated in the SAS infrastructure libraries, in which case they would not be documented here. Refer to the index of all errors and warnings available in the HTML version of the SAS documentation.
