

Review of Actions

EPIC TTD-030/8 on R. Saxton and K. Dennerl:

Start investigating the implementation of the parameterised RMF into SAS S/W.

EPIC TTD-031/1 on R. Saxton:

Open SAS SCR regarding propagation of PN SW mode discarded line rates to the calibrated events file (similarly to FF, EFF and LW modes).

In addition, verify that the SW mode discarded line related exposure time correction is properly accounted for.

EPIC TTD-032/1 on M. Smith and M. Freyberg:

Track PN CCD01 noisy column resulting from recent bad pixels. If required, implement mitigating measures (e.g. add advisory bad pixels to CCF or change on-board offset/BPT).
